Celerity Showcases New DigiBird® HDMI and DVI 4K Video Wall Controllers for InfoComm 2016

Irvine, CA – May 10, 2016 – Celerity Technologies, the leader in long distance 4K fiber optic solutions, will be at the **2016 InfoComm show, booth #N434**. In addition to the company's Fiber Optic HDMI and DVI cables and Fiber Optic Gateway transmitters and receivers, Celerity will be showing a new, cost-effective solution for 4K video wall controllers as the USA and EMEA distribution partner for DigiBird. The DB-VRC4 Video Wall Controllers from DigiBird are compact, video wall controller/processors featuring a 45 degree screen rotation to allow creative multi-screen video wall designs for retail stores, shopping malls, restaurants, sports bars, hotel lobbies or entertainment venues.

The DB-VRC4 series breaks the limitations of the traditional video wall alignment. Each DB-VRC4 controller video output can be independently flipped or rotated in 45 degree increments while supporting the alignment of varying resolutions and display sizes to build an asymmetrical and distinctive video wall. It also has mirroring capabilities and automatically compensates for the screen bezels of the video walls. Each display can be of different size or resolution.

PC-based set-up software is intuitive and easily loaded to the controller via USB. The software allows user support for EDID management, display library, screen rotation and more. Video connections support up to four DVI or HDMI display outputs and the DigiBird controllers can be cascaded to support up to sixteen displays.

Available at a suggested retail of \$1900.00 for DB-VRC4-D (DVI) and \$2,300.00 for the DB-VRC4-H (HDMI), the DigiBird controllers are the most simple and cost effective solution to build an eye-catching and creative video wall. DigiBird products will also be on display at **DigiBird, booth number N2947**.

DigiBird Compact Video Wall Controllers

| <u>Model</u> | <u>MSRP US\$</u> | <u>Availability</u> |
|--------------|------------------|---------------------|
| DB-VRC4-D | \$1900.00 | Shipping |
| DB-VRC4-H | \$2,300.00 | Shipping |
